

LSL-250D Remote Desk Station

The LSL-250D Remote Desk Station connects to the LS-250 Lobby Rescue Station for calling into the building's emergency telephones and elevator cabs. The LSL-250D's easy-to-read LCD duplicates the status messages visible on the LS-250 Rescue Station.

- Connects a remote security office/desk to the emergency phones
- Black powder coat with white bilingual (English / French) lettering

SPECIFICATIONS

Description: Upright black handset with LCD display

Certification: The LSL-250D handset is FCC / Industry Canada / CSA approved

Application: The LSL-250D Remote Desk Station connects to an LS-250 Lobby Rescue Station or an EBX-250 Emergency Phone Controller located elsewhere in the building to add an extra station for rescue personnel to communicate with all the emergency telephones connected to the LS-250 or the EBX-250. The LSL-250D Remote Desk Station handset rings at the same time as the LS-250 handset on incoming calls from the emergency telephones and the LCD messages on the Remote Desk Station duplicate those on the LS-250 LCD, showing which elevator is calling, a second call waiting and the system status. The system status messages include the following system trouble conditions:

- loss of telephone line detected
- loss of AC power and
- loss of backup battery power

The LSL-250D handset will ring with a distinctive double ring tone once every minute to alert security personnel of a problem.

Up to 4 LSL-250 Remote Stations may be connected to a Webb emergency communication system.

Wiring: Eight conductors (4 pairs) of shielded, twisted-pair communication cable (18 to 24 gauge) are required between the LSL-250D Remote Desk Station and the LS-250 Rescue Station/EBX-250 Emergency Phone Controller (Shielded CAT-5 cable).

Connections: The LSL-250D is supplied with a 2' CAT-5 cable (with all conductors labelled) for splicing onto the cable from the LS-250 Rescue Station.

Dimensions: 10" high x 9" wide x 5" deep

Finish: Black powder coated 18 gauge cold rolled steel with white silk-screened lettering ("Elevator Telephone / Téléphone D'Ascenseur").

Weight: 3.0 lbs. (1.36 kg)

Models: LSL-250D: Remote Desk Station; black with white lettering
LSL-250DB: Remote Desk Station; black with white bilingual lettering
